

## **Proposals for Corner of Playing Field**

- **Leave corner where hedge and fence meet as rough vegetation habitat;**
  - It already has large pile of rocks,
  - Make another rock pile with random ones we find,
  - Make a wood pile with any brash cut,
  - Pipes for frogs + toads,
  - Mini beast homes.
- **Select elder to keep & take out any not wanted**
- **Take out blackthorn**
- **Leave rose**
- **Plant bluebell bulbs in hedgerow**
- **Plant daffodils and snowdrops in 2 drifts each;**
  - Suggestions needed as to where required
- **Plant fruit trees (nut, cob tree);**
  - Need to decide where
- **Plant 3 native trees along curved edge between ash and hawthorn to mark the boundary;**
  - Suggestions - oak, field maple, silver birch, beech, lime, (need to find out which are best suited and choose).
- **Pathways not defined – leave for folk to decide on desired lines.**
- **Small area in hedge near corner;**
  - Open up for children to play in? assess how prickly it might be
