Discharge of condition 7 relating to footpath and cycleway  
**Former Harbury Cement Works, Station Road**

The route of the path as shown on the plan provided was discussed and it was agreed that this followed the expected route as previously agreed with the developer. There were no issues with the route.

The clerk reminded councillors that the developer had also previously agreed to install pedestrian gates in the Yellow Land fence at the points where pedestrians currently gain access to the land which is now in the ownership of WWT in order to link up with other paths to be installed on the nature reserve. It was agreed that the clerk would follow this up.

It was **RESOLVED** to request discreet low level lighting, no more than 1 metre high, facing away from the nature reserve so as to light the path only, with motion activated sensors, or other suitable low level technology, and to be switched off at midnight in order to have the least possible impact on the nature reserve.
